

# Autism and I/DD Training

## Assistive Technology

March 19, 5:30-8:30 PM, online

This training will provide you with examples of low to advanced technology that enhances the life, safety, learning, and well-being of our loved ones with autism or an intellectual disability.

You will learn:

1. The importance of assistive technology in the lives of our adult children
2. How AT can advance the capacity of learning, independence, safety, and well-being
3. See examples and application of assistive technology.
4. The process of purchasing and implementing assistive technology.
